

Determined

Word of the Month

Vision Statement

Academic Institute of Central Carolinas' staff and board has a vision that the programs of the agency help all ages overcome barriers that impedes educational success. Regardless of class, social status, and cultural backgrounds they are afforded the opportunity to attend and complete higher education, training programs, and use their potential to attain their educational dreams.

Mission Statement

To encourage and provide pre college service to persons who are traditionally under-represented in post-secondary education in Mecklenburg, Gaston, and Union counties of North Carolina. To ensure that income or family educational background do not deter their preparation, entry and completion of higher education.

Academic Institute of Central Carolina Educational Opportunity Center

Director's Corner

EOC staff continues to work diligently at staying up-to-date with Federal financial aid regulations and the availability of other educational funding sources.

In addition, great effort is put forth in continuing, as well as establishing, strong collaborations with other community agencies, educational institutions, and organizations in the community. A strong referral network ensures the EOC participants receive the services necessary to meet their educational and career goals.

We are proud of our EOC participants' many accomplishments and successes! We look forward to serving many more individuals.

Sincerely, *Deborah Kingsberry*
