New EOC Outreach Specialist

Audriana Wilson is the newest addition to the AICC team as an outreach specialist in the EOC program. Audriana has a background in social work and came to the AICC from Columbia, South Carolina. She worked previously as a foster care intake coordinator. She is a 2020 graduate of Benedict College where she graduated with honors and earned a Bachelor of Science degree. When she is not helping students she enjoys spending time with her family, shopping, and watching sports.

“Nothing is impossible, the word itself says, ‘I’m possible’.”

-Audrey Hepburn

Studying Tips

1. Minimize distractions
 - a. Find a calm and quiet place
2. Create a study schedule
 - a. Plan ahead when preparing for a test
3. Create goals for the study session
 - a. Have a plan for what you will know after studying
4. Take breaks when necessary

Financial Aid Application Help!

Just want to remind everyone we are setting up appointments with our EOC students to help with completing the FAFSA application! Email or call us to reserve your spot!

Tips for Science Section

The GED Science section consists of basic concepts in life science, chemistry, and interpretation of scientific data.

The science section is not a memorization test, so you will not have to remember the periodic table or scientific formulas.

It was designed to test your ability to answer questions using provided findings, charts, and graphs.

Many students who typically struggle with science might find this part of the exam easier than they expected.

You should have a thorough understanding of the science question types to do well in this section.

-William Cohen
